

% messages filed immediately
(i.e. with "frequent filer" strategy)

Pure Frequent filer
(100% frequent filing, 0% spring cleaning)

Example Change 1 (pro-organizing)
Joe starts dating Mary and files all her (many) emails in a new "Mary" folder. The relative proportion of items processed by "frequent filing" increases
New strategy: 12% frequent filing, 88% spring cleaning

Joe's initial strategy:
(10% frequent filing, 90% spring cleaning)

Example Change 2 (anti-organizing)
Joe is spending all his time with Mary and has less time for filing. Relative proportion of items processed by "frequent filing" decreases
(8% frequent filing, 92% spring cleaning)

% messages "spring cleaned" from inbox within 6 months

Pure Spring cleaner
(0% frequent filing, 100% spring cleaning)
